**U.S. debt:**  
**solon says**  
**heed LDS**

Rep. George Hansen, R-Idaho, told BYU's College of Religious Education today the U.S. Government should practice the teachings of the LDS Church to remain free from debt.

Hansen said the current U.S. debt is "horrendous and out of control." He said even the LDS who want to control it can't.

"The government needs to practice the Mormon Church philosophy to stay out of debt," Hansen said.

LDS Church officials regularly encourage members to avoid unnecessary debt.

Hansen urged the nearly 40 students in attendance to become actively involved in politics, not because it's a game, "but because of something you believe in."

"It's your government. If you leave it to someone else with different moral and ethical values, then it's their government and not yours," the Idaho Congressman said.

## The Rabbit is Amazing.

But don't take our word for it.

**Road & Track** "This car does it all, it's small, light, roomy and fast, with nimble and responsive steering, ride and handling. Best overall value \$3,300."

**Road Test Magazine** "It is the finest example to date of a totally integrated passenger car, useful anywhere in the world, and is qualified as no other imported car is for 1975 for the Road Test Engineering Award."

**Popular Mechanics** "Volkswagen's Rabbit is the best value for 1975."

**Car & Driver** "Whole populations of drivers will live for years with this car, strongly impressed by its generally nimble disposition and its sensitive feel of the road through the steering wheel and brake pedal."

**Esquire** "It is the specific type of car that Detroit will be building in the 1980's."

## Budget office raps Ford proposals

WASHINGTON — President Ford's taxing and spending proposals could slow down recovery and the decline in unemployment without much immediate improvement in inflation, the Congressional Budget Office (BO) said Monday.

The CBO said the economic restraint proposed by Ford could mean an unemployment rate at the end of 1977 six tenths of one percentage point higher than would exist under a current policy program.

## Callaway kin repudiate charges

DENVER — The president of the ski resort controlled by the rest of the Callaway family denied Monday that the expansion of the resort on federal land would prove that allegations of wrongdoing are unfounded.

"We welcome the investigation," said Ralph Walton, Callaway's brother-in-law and president of the Crested Butte Ski area.

## Psychiatrist calls Patty angry rebel

SAN FRANCISCO — Patricia Hearst was "a rebel in search of a cause" before she was kidnapped, an angry young woman "ripe for the plucking" and eager to join her terrorist captors, a psychiatrist said Monday.

"This girl was a rebel," said Dr. Harry Kozol. "Who was in a receptive state of mind."

The 69-year-old Kozol testified in the prosecution rebuttal case at Miss Hearst's bank robbery trial, which entered its eighth week Monday.

# Lit programs planned today

"An Evening in the Home of a Professor" and the movie "Long Day's Journey into Night" are the programs scheduled today and Wednesday as part of American Literature Week.

For "An Evening in the Home of a Professor" students will have a chance to attend the homes of two English professors. Dr. Neal Lambert will discuss "The Frontier in American Literature," which will deal with the effect that frontier America has had on American literature. This discussion will start at 8 p.m.

Dr. Clinton Larsen will talk about the best western authors. His discussion, "An Oval for Fine Poetry: Victoria, Los Angeles, Tucson and Denver," will be at 7:30 p.m., according to Grant Walker, president of English Circle.

Students planning to attend are to sign up in the English Department Office at 246 JKA at least a day in advance.

Maps and the professor's home are arranged for students.

"Long Day's Journey into Night" will be Wednesday at 7:30 p.m. at 430 University Circle. This movie will be purchased for \$1.50.

The movie is for former matinees. It must now appear at night. The movie plays until his wife becomes addicted to him. His son will be an alcoholic and the young woman who is a would-be

# Make Your Mark in History

When the Harold B. Lee Library is dedicated next month, a time-capsule is to be deposited in the cornerstone. YOUR suggestion could be included!

Entries should suggest such things that are unique to the B.Y.U. studentbody, and human interest items that say how life is being lived in 1976.

DONATORS WILL HAVE THEIR NAMES ATTACHED TO THEIR CONTRIBUTIONS -- Your chance to make your mark in history!

Be there in 50 years when the time-capsule is opened!

Groups or individuals may enter. Suggestion forms are also available from the receptionist on the 4th floor of the Wilkinson Center or use the one provided below. Deadline date for returning the forms is FRIDAY, MARCH 26.

"FLAVOR OF OUR TIMES"

## ENTRY BLANK

# library addition get memory box

Box containing a variety of memorabilia will be placed in the one of the new addition to the Harold B. Lee Library during a ceremony at BYU.

Olson, director of University Relations and chairman of the committee, said the cornerstone will be opened in 50 years.

The box will contain instructions for those opening it to add other materials, if he added the contents would then be examined in another 50 years,

BYU's bicentennial year of 2076.

Some final selection of items to be included in the box has not been made.

Items to be placed in the cornerstone are letters from faculty and alumni to their counterparts living in 2076 and copies of University and other publications.

Possibilities include historical photographs from 1976, Centennial

s, tape recordings, a commencement program, a student directory,

construction photos, a man's wide tie, a woman's platform shoe and other "flavor of our times" items.

The library is a major building to be completed during 1976, the idea for it was appropriate to recapture and commemorate BYU's 200th anniversary by placing such items in the cornerstone, said Library Director K. Nelson.

all being done in the spirit of tradition and history of the University," son.

measures 10 inches wide by 13½ inches deep and 28 inches long, and

is constructed of one-fourth inch thick brass. It will be placed in a specially

1 block in the southwest corner of the library addition. A bronze plaque

the cornerstone is already in place.

Library Director Ronald K. Nelson (kneeling) and Aldo C. Nelson, assistant construction engineer for Physical Plant, check the fit of a brass box and the opening provided for it in a cornerstone of the new addition to the Harold B. Lee Library.

## Cesarean-section surgery helps increase birth rates

HAVEN (AP) — The use of Cesarean-section surgery in childbirth to be one reason for a rising rate of birth at a birth specialist.

Surgeons are more and more as we learn better ways to make the preferable of delivery and

improve the surgical technique, said Dr. John Hobbins of the Yale Medical School.

"It is difficult to directly relate the decrease in perinatal mortality death on or near birth with the increase of Cesarean sections because we are able to take care of the fetus before many methods," he said.

Its use has more than doubled at Yale-New Haven Hospital in the past 10 years, from 6 to between 13 and 14 per cent, said Hobbins, an affiliated professor of obstetrics, gynecology and diagnostic radiology.

Over the past 10 years, Yale-New Haven Hospital has reduced its rate of newborn mortality to less than 9 per 1,000 live births, according to hospital records. That is less than half the national average of 17 per 1,000 live births.

Certain hospitals use surgical delivery more often than others because of special programs for pregnant mothers with complications.

## Jacqueline Onassis visits tomb of Onassis

SCORPIOS, Greece (AP) — Jacqueline Kennedy Onassis and her stepdaughter Christina attended a graveside memorial service Monday on the first anniversary of the death of Aristotle Onassis.

The Greek shipping magnate's widow and daughter were accompanied to his Ionian sea island by Christina's husband, Alexander Andriulis, and Onassis' two sisters. A private jet took them to Actium, on the west coast of Greece, and helicopters brought them to Scorpions.

Photographers were barred from the private island.

Onassis died in Paris at the age of 69 and was buried on Scorpions alongside his only son, Alexander, who was fatally injured in a plane crash in 1973.

NEW YORK (AP) — The sudden increase in purchases of older homes during the closing months of 1975 has faltered so far in 1976, in part because of continuing high mortgage rates.

The usual government statistics do not show last year's boom because it dealt almost exclusively with new home activity, which was depressed last year and remains so in 1976.

But while new houses were not selling as fast as last year, older homes were being bought and sold in record numbers in 1975, according to estimates by the National Association of Realtors.

Kenneth Kerrin, an association statistician, estimated that home buyers purchased between 2.5 million and 3 million older homes last year. Since no hard figures exist, the rule of thumb economists use is that older home sales are normally about two to two-and-a-half

times more numerous than new home sales.

But last year, Kerrin says such sales were as much as four times greater.

Haslam said that the flu is ameliorated from three days to a week, and there is no medication that a physician can prescribe. "You just have to wear it out stay in bed, drink fluids and take aspirin."

"Some doctors give antibiotics, but these are not prescribed for the flu, they are a preventive measure to ward off other diseases," remarked Haslam.

Deseret News reported in several nursing homes attributed to the flu, said John Brockhart, director of

"The flu epidemic usually falls in a cycle which is every three years. Each winter Utah faces with many flu cases, but they do not become epidemics," said Haslam.

## CIA says 'no' to press

WASHINGTON (AP) — News organizations have been rebuffed in their continual attempts under the Freedom of Information Act to obtain the names of journalists who have worked for the CIA.

The Associated Press and The New York Times had denied their requests for the names, claiming that such information was exempt from the terms of the act.

The Freedom of Information Act gives the news organizations the right to appeal the decision. Executives for both the AP and The Times said no final decision had been made on whether to appeal.

CIA Director George Bush has banned any future use by the CIA of reporters for U.S. news organizations.

In its response to The AP, the CIA said that the names were properly classified and therefore exempt from disclosure. The agency said the names also were protected by a separate law which requires the Director of Central Intelligence to guard against the disclosure of intelligence sources and methods.

# Flu epidemic expected to last till winter ends

The Utah Bureau of Labor and Industry has confirmed the presence of both Influenza A2 and Influenza B in Utah. The epidemic will probably last until the weather breaks, according to Byron Haslam of the state health department.

The B type was the cause of the last epidemic in the Green River, said Haslam. "The first typing was in January. We have kept a continual surveillance in the schools."

Haslam, who is affiliated with the Department of Education, said that each week the department records the absenteeism in schools, businesses and in visits to a clinic.

"We feel that this type of surveillance is a small sampling of a real problem that Utah is facing. There is really no way to make an actual count of the number of flu cases there are," continued Haslam.

Deseret News reported in several nursing homes attributed to the flu, said John Brockhart, director of

# Y grappler captures honor

Sam Orme became the 10th BYU wrestler to win All-American honors during the NCAA finals this past weekend.

Iowa State won the title.

A 118-pound sophomore from Idaho Falls, Orme earned the honor by placing fifth. He beat Mark Costello of the U.S. Naval Academy, 11-4.

"Sam has done a good job for us all season," said Coach Fred Davis.

Orme was somewhat in doubt after losing his opening match, but got a reprieve when defending champion Sharon Jackson of Oklahoma State was disqualified for failure to make weight.

Orme then went on to win three of his next four matches.

"The kids wrestled well mentally and skillfully, but we're not up to par physically," Davis said.

"The tournament seems to get bigger and stronger each year," he added. He said of the five returning NCAA champions, only two came away victorious.

Three other BYU wrestlers competed at the NCAA meet. Paul Fehlberg (126) won one

and lost one on Thursday and was unable to advance. "This year's inactivity really hurt Paul," Davis said. "We were lucky to get him back for the WAC and the NCAAs."

Fehlberg missed most of the season with a knee injury.

Steve Sanderson (142), of Pleasant Grove, split his opening day matches. He whipped Jim Clark of St. Cloud, 15-2, but lost to Steve Barnett of Oklahoma State, 12-3.

Brad Hansen, a freshman from Teton, Idaho, also won and lost opening day matches. He pinned Joe Capilla of Bloomsburg State and then lost to Oklahoma State's John Jackson, 7-3.

Hard luck also fell on Alan Alford of Aliso Viejo, who the WAC championship with a gutsy performance, but was forced to the sideline last weekend with the flu.

Also defeated in opening rounds was previously unbeaten Roye Oliver of Arizona State at 150 pounds. Other WAC performers to fall by the wayside were Rob Anderson of Colorado State at 126 pounds and John Hanshaw of Arizona at 158

158 pounds.

Orme started the season off

rather slowly, but won 16 of 17 matches prior to winning team next year," Davis said.

"We were a young team this year and had a lot of injuries, but the experience gained will help us next year."

## Women's track squad takes victory in Vegas

By DOUG ARMSTRONG  
Universe Sports Writer

BYU's women's track and field team avenged an earlier season loss by defeating Nevada-Las Vegas and two schools in a quadangular meet held last weekend in Las Vegas.

The Cougars outpointed UNLV 53-51, with the University of Redlands third with 33 points, followed by Hawaii with 26.

BYU had gone ahead 30-19 after six events, but then UNLV caught on fire and with one event remaining, led BYU 49-45.

The two-mile race was to be the deciding factor, but Hawaii's Wendy Berger scheduled to run for BYU. At the start, Miss Hasselblad broke for the lead with UNLV's Sherry Quinlivan right behind and Miss Berger in third place.

The race finished that way, but Miss Quinlivan had pulled Kori Hasselblad twice across the edge to qualify Miss Quinlivan and giving Wendy Berger enough team points to give the meet to BYU,

Besides Miss Hasselblad's victory in the two-mile, other winners for BYU were Pam Farrall in the high jump and Marie Bone in the javelin.

Miss Farrall leaped 5-4, followed by UNLV's Linda Cornelius, with a jump of 5-2.

Miss Bone threw the javelin 126-3 to beat out teammate Kathleen Carlile by five feet.

Carlile took second-place honors for the Cougars with Miss Farrall in the shot put, with a heave of 33-8. Miss Carlile in the discus, with a throw of 105-9 and the team of Sharon Benson, Magda Villareal, Julie Varela and Marcia Chadwick in the 440-relay, with a time of 50.2.

After gathering second-place points were Kim Marshall in the 100-meter dash with a time of 51.29.3 and Deana Nelson in the 100-meter hurdles with a time of 16.3.

The Cougars had third-place showings by Miss Villareal in the long jump, Miss Carlile in the shot put, Linda Boyd in the discus, Deana Nelson in the 400-meter hurdles and Kim Marshall in the 200-meter dash. Miss Chadwick and Miss Benson in the mile-relay.

## Men bowlers win Y invitational meet

By STUART NELSON  
Universe Sports Writer

Drew Rowe rolled a sizzling 255 in the final match Saturday to spark the BYU men bowlers to an 11th team victory in 12 years in the two-day, 22-team BYU Invitational. The women's squad finished second.

Collecting four consecutive strikes in his final frames, Rowe topped off one of the most dramatic finishes in BYU tournament history.

Down by more than 80 pins after the first day, Washington State and notched eighth in third before the last match, the Cougars fought valiantly back with another 200 from Hal Brendle and a 182 by Steve Ohngren to win.

The nine-game team totals for BYU showed 8,314, with second-place Northern Arizona right behind at 8,229.

"Drew knew we could still win and knew precisely what we needed to do, so he fired himself up and won the tournament for us," said uncoached Coach Shuster Brown.

In addition to winning high game for the tournament, Rowe also accepted the all-events trophy with a 2,327 for all games, the best total for both singles and doubles competition.

Behind a powerful Northern Arizona team by as many as 25 pins early in the tournament, the Cougars fought valiantly back and began to chip away at the deficit. BYU never led in the tourney until the rally in the last two frames of the final men's contest.

In the doubles competition, the Mike Freidrich-Guy Hawson team from BYU took top honors while Rowe and Brendle placed fourth.

On the women's side, BYU's Candee Hannaman and Jeannie Busby tallied 1083 in the doubles, giving the team a second-place finish under an awesome Washington State squad, who averaged 173 as a team for the tournament.

Utah State's Mary Gibson garnered top all-event honors with a pressure-packed tie-breaker in which only three frames were bowled.

Becky Shaw shot an

incredible 607 for Washington State to win the high individual series trophy.

Brown called the event a

well-organized tournament

in the direction of Miss Hannaman, and one containing several excellent teams and bowlers.

## Sports The Daily Universe

### Sports directors name state trophy

Sports information directors at BYU, Utah, Utah State and Weber State have come up with a name for the in-state basketball trophy.

The "Old Oquirrh Bucket" was named for Utah's Oquirrh Mountains, according to Daws Schultess, BYU sports information director. The copper trophy goes to Utah State in its first year. It will be presented to the Aggies in November.

In the cage rivalry, Utah State finished with 4-2 record, Utah was 3-3, BYU and Weber each 2-3. In the 11 games, six were decided by one or two points. Utah was involved in four of these games and BYU in three. Weber State was the only school failing to win on the road.

Y rugby unit to scrimmage

An intra-squad rug will be held tonight p.m. at Haws

Admission is \$1.

The white vs. blue will be played by the BYU rugby team in according to Coach Brown. From this Brown will pick the team to play in the March 26 to take tournament competit

In a game last week, BYU defeated Provo Club 16-0. Brown said pleased with the performance of the team. Mike Rick Taylor, coach for the while Sam Madsen scored points and Mike added three.

# Africa gymcat arns very fast'

JOY ROSS  
Sports Writer

**Gymnast Arnold**  
of unlimited  
dence is easily  
Arnold would  
nothing do  
ner top South  
munist and one of  
ee all-around  
BYU, Neville  
ends enough to  
soft touch.  
African national  
scholarship offers  
leges such as  
and second-ranked  
ite.

other hand, at 18  
Neville is young  
thrilled with a  
victory over a  
second-ranked Cal  
pton, and a bit  
over BYU dress  
which dashed his  
school dream of  
my hair out just a  
Non-LDS

is a non-LDS  
st came in contact  
while rooming and  
with former BYU  
NCAA champion  
Wayne Young  
in February of  
later told BYU  
Johnson about  
a possible recruit  
program.

Only days after high school  
graduation, with letters from  
Coach Johnson in hand,  
Neville headed for Provo  
because he figured he'd  
never get any work done at  
Berkeley. However, Neville  
spent a year finding a  
London without any money,  
courtesy of a visa problem,  
and ended up entering a  
humanity plea to ease hunger  
pains.

Natural swinger

A self-professed "natural  
swinger" who started out in  
gymnastics because the  
idea of tumbling and swinging  
appealed to him, Neville says,

"There's great mental  
satiation in it, in teaching  
the body to listen to the  
mind. The word that best  
describes my mental attitude  
is perfection."

Coach Johnson agrees that  
Neville has a good feel and  
sense of his body when he's  
in the air, but unhesitatingly  
lists Neville's greatest asset as  
strength, "unbelievable  
strength."

National contender

Day for rest

"We get a day's rest here,"  
continues Neville, "and we  
rest longer, but that doesn't mean we get as  
much done. You must want  
to work here."

Neville is naturally an  
all-around performer because  
not specialists are allowed in  
international competition.  
He has a hard time picking a  
favorite event. He likes the  
side horse "a little less"  
because of its difficulty.

Strong points

"Arnie's floor exercise is  
really fine," says Coach  
Johnson. "He's been getting  
better than nine's all season.  
He is also very strong in high  
bar and vaulting and is good  
in the other areas too, but  
needs polish."

Neville follows an elaborate  
routine to mentally prepare  
himself for competition. It includes  
power workouts to increase  
endurance two weeks prior to  
the competition, a period of  
clearing his mind for several  
nights and endless working of  
his routines, not only bodily  
but mentally too.

Arnie Neville, all around performer for the Cougar gymnastic team, practices a routine on the parallel bars.

routine to mentally prepare  
himself for competition. It includes  
power workouts to increase  
endurance two weeks prior to  
the competition, a period of  
clearing his mind for several  
nights and endless working of  
his routines, not only bodily  
but mentally too.

Rewarding meets

"It's most rewarding after  
the meet, having finished and  
hit all your events without  
making stupid mistakes," he  
says.

"You must stay cool,  
and that sometimes' hard to  
do after watching a perfect  
routine by a specialist."

Neville rates gymnastics as  
his No. 1 priority, just  
slightly ahead of eating and  
having fun as a goal.  
Despite the fact that South  
Africans are barred from the  
Games for alleged national  
racial discrimination, Neville  
may possibly become a  
naturalized American citizen or  
he may elect to follow

Coach Greg Sano's advice to  
marry an American girl.

Halfback?

At 5-10 and 150 pounds,  
Neville is large for a gymnast,  
towering over his teammates  
at 5-7-1/2 and 140 pounds.

When he got off the plane,  
says Coach Johnson, "I  
thought I had recruited a  
halfback. And then I saw him  
tumble. No halfback could  
ever tumble like that," concludes  
Johnson.

Tonight

# Quintet will perform

An evening of musical quality is scheduled at BYU today at 8 p.m. when the Laureate Woodwind Quintet performs in concert in the Madsen Recital Hall as a feature of the Fine Arts Chamber Series.

The group includes Timothy Malosh, flute; George Hirner, clarinet; Joel Marangella, oboe; Andrew Cordle, bassoon; and Joseph Anderer, French horn. Adding an extra dimension to the woodwinds is the piano which was often included as an integral part of the original scores.

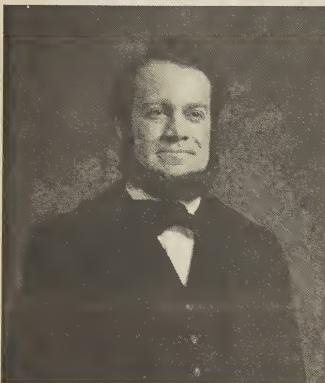

Critics have referred to the young artists of the quintet as in the "laureate" category fivefold. Over the centuries, many masterpieces have been written for woodwind quintet, and the repertory of this ensemble includes gems representative of the classic, romantic and contemporary periods of music.

Besides of their faceted talents, these young musicians have been the recipients of numerous citations, scholarships and competition prizes.

The artists' other credentials include many recital appearances, as well as engagements with the New York Philharmonic and the Detroit Symphony, and with such ensembles as the Carmoos (N.Y.) Festival Orchestra.

Members of the Laureate Woodwind Quintet are, left to right, George Hirner, clarinet; Joel Marangella, oboe; Joseph Anderer, French horn; Timothy Malosh, flute; and Andrew Cordle, bassoon.

James Arrington will portray Brigham Young in the production of "Here's Brother Brigham."

## 'Brother Brigham' to open Thursday

Brigham Young, second President of the LDS Church and great colonizer of the West, will be portrayed in a one-man show, "Here's Brother Brigham," by actor James Arrington, beginning Thursday as a feature of the Mormon Festival of Arts.

Arrington said he plans to portray the character of the churchman in the style of Hal Holbrook's interpretation of "Mark Twain Tonight" and James Whitmore's one-man television show on Will Rogers.

"Here's Brother Brigham" will play Thursday through Saturday and March 25-27 at the Nelske Experimental Theater. Tickets are available at the Drama Ticket Office, HFAC.

Arrington, formerly with the American Conservatory Theater, said he first got the idea while watching Whitmore's interpretation of Will Rogers. It occurred to him that someone ought to do the same thing with a prominent figure of the Mormon Church.

## Two students produce programs for Y radio

By BROOKE TODD  
University Staff Writer

Imagine your favorite science fiction writer sandwiched between you and a friend in the back seat of a station wagon, traveling down a Los Angeles freeway.

That's picture perfect to you. "Everything about the mounting of the show, the sound of it, the ambience, is terrific. The script itself is way above average for such things."

Only in the performing does the entirety occasionally get shaky. What else can I say? I love you for doing this."

Ray Bradbury, creator of "Fahrenheit 451" and science fiction writer Brad Arrington and Mike McDonough are the friends, and their brief meeting with Bradbury on a afternoon several years ago has led to the productions and airing of two radio programs over KBYU-FM.

Arrington is now a junior at BYU from Whittier, Calif. McDonough, also a junior, is from La Mirada, Calif.

Pre-empts national show

Bradbury's "Fox and the Forest," a selection from his book "The Illustrated Man," was Arrington's and McDonough's first aired radio show, pre-empted a national broadcast to air Halloween night on KBYU-FM.

A two-part program devoted to "The Fantastic Film World of Bernard Herrmann" and McDonough and Tuesday, over KBYU-FM at 9 p.m., is their second show.

### Mask plays today

Mask Club will present two student-directed plays at 12:10 p.m. and another two at 4:10 p.m. today in the Nelske Experimental Theater. "Adaptation," directed by Rick VanNoy, and "The Crate," directed by Steve Anderson, will be shown at 12:10 p.m. "The Perfect Companion" directed by Keith Perry, and "Day Before Yesterday," directed by Tammy Tronier, will be performed at 4:10 p.m.

"The Fox and the Forest" opportunity to meet Ray is one of three radio Bradbury broadcasts representing Arrington and McDonough in the "Best of accepted a drama professor's invitation to accompany Bradbury and the instructor to Bradbury's home.

### Radio movie

It represents what McDonough describes as "a movie without pictures." The "radio movie" is an elaborate mixing of story, sound effects and music.

McDonough and Bradbury are both natural radio broadcasters, according to Bradbury, when both were given tape recorders to amuse themselves, they set out to make movies without pictures.

Since both Arrington and McDonough enjoy science fiction, they wanted to produce a science fiction radio show, Arrington said.

It seemed only natural to ask Bradbury if they could produce one of his works, since he enjoyed his style and had made many.

Bradbury was contacted and delighted with the idea. In fact, he even introduced the program for them, and when they sent a tape to him after the project was through, he responded with the previous quoted statement.

only do the ded students with these rooms benefit, rooms now have a seating capacity. (Ed Hartman) addition said, these rooms chosen was primarily of the architecture,"

of people hiring and works with large law firms to provide on-campus interviews, Mrs. Goold said.

Mrs. Goold said about three-fourths of the students seeking jobs have taken the interview tips.

Sometimes, she said, a firm will come to campus and interview students. They will be impressed with one or possibly two students and arrange to fly them to their so members of the firm can meet them and the students can meet the lawyers.

Clerkships may be served in law firms of all sizes, local, state and federal government offices. Mrs. Goold said. Clerks do research, write briefs and memoranda, take depositions, witness and do a lot of background work lawyers need, Mrs. Goold said.

Some students have been placed this way, others have been aware of job openings and applied for interviews, and no student need wait for jobs yet because they're waiting to graduate, go back east, and look for jobs after settling down, she added.

Top 20%

Mrs. Goold said it is easier for a student in the top 20 per cent of the class to get a job, but there are still

Third-year law students, Damian Smith (left), Marianne Moody, Monte Stewart, Bruce Duffield and Bruce Reese discuss law positions they will take upon graduation.

Universe photo by Clark Knight

students in the bottom per cent of the class with jobs. "I haven't really been able to draw a line," she said.

A good way to increase the chance of getting a job upon graduation, Mrs. Goold said, is by working in a law-related job the summer following the second year of law school. These jobs include clerkships and research projects, she said.

Clerkships may be served in law firms of all sizes, local, state and federal government offices. Mrs. Goold said. Clerks do research, write briefs and memoranda, take depositions, witness and do a lot of background work lawyers need, Mrs. Goold said.

Some students have been placed this way, others have been aware of job openings and applied for interviews, and no student need wait for jobs yet because they're waiting to graduate, go back east, and look for jobs after settling down, she added.

Clerk experience

"Most law firms try to give clerks exposure to most everything they do as a law firm," she said. Many

students enjoy a certain area of their clerkship and decide to specialize in certain areas of the law. They then come back for their third year with a more definite view of what classes they want to take and emphasize, Mrs. Goold said.

If a student doesn't get a clerkship, but wants to work in a law-related job, he can do a research project, Mrs. Goold said. Since it's "against the law for second-year students to do anything on their own," they work for attorneys, either as paid workers or volunteers, and do research involved in cases.

A number of students find it easier to work in jobs that don't require a law degree, but Mrs. Goold said it is also a student's advantage to work in a law-related job.

Mrs. Goold said that one disadvantage of law students is that they have to pay the expense of moving when they are accepted to a new law firm for just a summer. Yet, most are still able to get good jobs. "Last year everyone who really wanted to do law-related work did it," Mrs. Goold said. "Some of it was volunteer, but it is good experience."

For students who don't work for a law firm, there are positions in banking, real-estate, land developing and insurance. Mrs. Goold said students go into politics or work for politicians, but the majority want to work for a law firm or an individual.

50% have jobs

About 50 per cent of second and third year students combined have jobs for this summer. They will be working in 16 different states, Mrs. Goold said.

"We're very optimistic in spite of the dark picture it is painted for jobs for lawyers," Mrs. Goold said. "I think students have done an extremely good job at finding their own jobs."

## LDS Church receives valuable horse ranch

An Arabian horse ranch in Oregon, valued at \$200,000, has been placed in trust for the LDS Church by Conrad and Ila Green of Portland, Ore.

The unrestricted gift includes 700 acres of land divided into 18 separate fields, a four-bedroom home, laboratory, three barns, two indoor arenas, weaning barn, hot walker building and eight-inch well. The ranch is located in the Willamette Valley, 20 miles south of Portland.

Mr. Green, president of Interstate Training Service in Portland, stated that the ranch was given to the L.D.S. Church because of his high regard for the church and its humanitarian work.

"My family and I have no financial need," he said, "and the money will be put to good use by the church. It will go where it can do the most good."

Mr. Green developed the ranch himself, after purchasing the land as

stumpage in 1960. In 1962 the ranch was destroyed by a severe storm and had to be rebuilt. The ranch has produced several prize stallions and is well-known for the quality of its horses.

The committee will meet with Pres. Dallin Oaks and Academic Vice Pres. Robert

Thomas Tuesday morning. Later, it will meet with Chauncey C. Riddle, assistant

## Clubs announce plans for activities, meetings

### ALASKA CLUB

March activity cancelled but we have a fireside planned Sunday at 9 p.m. in 115 KJB. President Durrant, the former president of the Alaska B.C. Mission will speak.

### ALPHA PHI OMEGA

Meeting in 379 ELWC at 8 p.m. Both pledges and members should be in attendance.

### ALPHA ZETA

Initiation. See posters in WIBD. Initiates, students and faculty members all urged to participate.

### ALPINE CLUB

Meeting in 230 ESC at 7:30. Everyone invited.

### Y-SQUARES

Meeting, dance Wednesday at 7 p.m. in 179 JSB. Rounds and square dancing.

### AUNO

Bring talents and favorite desserts to the first talent night. See you in the Little Theater, ELWC at 7 p.m.

### CANADIAN STUDENTS ASSOC.

Dr. Myers of the Anthropology Department will speak of the first Canadians Wednesday at 3 p.m. in F509 HFAC.

### CHRISTIAN SCIENCE ORGANIZATION

Tonight at 8 p.m. in 379 ELWC meeting with club presidents and cultural display chairman.

### JITTERBUG CLUB

Dance practice tonight at 7 p.m. in 179 JSB. Will learn new hustle.

### INTERNATIONAL ASSOC. STUDENTS

International Week festivities Sat. at 6:30 p.m. with food from every continent. The Internationals will dance. Buy a ticket at the International Office, A235 ABS.

### WHEEL BALANCE

Tonight at 8 p.m. in 379 ELWC meeting with club presidents and cultural display chairman.

### SLAVIC CLUB

Lecture on genealogy work in Eastern Europe Thursday at 7 p.m. in 347 ELWC. Open to anyone. Bring European documents with you.

### SOCIAL CLUB

Meeting Wednesday at 6 p.m. at Haws Dell. Open to all students interested in playing spring or summer. Also we will discuss Sacramento visits to campus.

### VAKHOM

Meeting in 349 ELWC at 7 p.m.

### Lecture topic: Appliance jobs

Job opportunities in the appliance-oriented field for home economists will be a lecture topic Thursday at 7:30 p.m. in 1205 SFLC.

Alice Doherty, western regional consumer director for General Electric, will speak on her own job experiences and other job opportunities in her field.

A native Californian, Mrs. Doherty received her degree from the University of California at Berkeley in Home Economics and Applied Sciences.
